

Communications Committee Report

POA Board Meeting September 16, 2017

Looking back two months since last Board Meeting, the island has whirled with activity. Preparation and implementation for major events on Dewees consumed the volunteers and staff.

While Communications Committee was not directly responsible, our committee members lent energy, effort and experience in much of the work that yielded success. Other reports will have details of their work. We compliment the preparations; the frequent updates and thoughtful planning that resulted in an educated, prepared community.

August 15 – David Dew stepped off the ferry and into his role as General Manager on the run. His outreach to owners and staff alike has quickly assimilated him into the mainstream of life on Dewees.

August 17-21 - Total Solar Eclipse – Beyond anything we imagined as the moon switched off the sun and the turned the world into a twilight zone.

Congratulations to all those who were behind the scenes:

Logistics for managing visitors on to and off the island

Creative educational activities for adults and children

September 1 – Labor Day Weekend – a Welcome Brunch for the Dew Family, an Art Opening, traditional family events

September 11 - IRMA's arrival From Evacuation on the 8th through today, David has exhibited leadership and sensitivity to the community. His excellent daily Hurricane Updates gave information and confidence to the community that Dewees was well watched.

Thank you community volunteers; thank you staff; thank each of you for your willingness to pitch in and your commitment to Dewees.
