

Archives Committee March 18, 2018

Archives committee has been quite busy dismantling it's display area in the Landings Bldg and moving the display to the library in the Huyler House. A small display remains in the window box at the Landings and storage is still available upstairs there. Correct labeling and signage is still in the works for both areas.

Work still being pursued by committee is an access to our taped interviews, instituting repair efforts for the sub tower, getting a reprint of Jim Cochran's book, and organizing our storage area.

A plan is in the works for a history tour over Memorial weekend, so our newest owners can learn more about Dewees.
