

Wetlands Committee Report
January 21, 2017

I spoke with Malcolm Baldwin of Ducks Unlimited last week. He said he expects (hopes) we would have the permit by the end of this month. The paperwork had been set aside and forgotten by the Corps, but they are now working on it. Malcolm stressed to them that the contractor would need move heavy equipment onto the island and does not want it here during hurricane season, therefore we need a decision soon. If the permit gets completed by the end of January, the time frame to begin the project will be the end of February. The bids from the contractor came in with a figure Ducks Unlimited was comfortable with.

Respectfully submitted:

Faith Schwaibold, Chair Wetlands Committee
